

The providers at the Meridian Group are committed to the health and safety of our patients, staff, and clinicians. During the COVID-19 outbreak and the constantly evolving situation, we have made some adjustments in the way we provide services.

1. For those of you who do come to the office, we have taken precautions to ensure everyone's safety. You have the option for using a separate waiting room. You may also stay in your car until your visit, and your clinician will call you at your appointment time and you can go straight to their office. We have hand sanitizer in our waiting room and hand soap in the restrooms. Our offices and waiting rooms are large and allow for appropriate social distancing as needed.
2. All our clinicians have HIPAA compliant telemedicine capabilities and telehealth is available. Ask your clinician what options are available to you.
3. Our front office staff is happy to help you. However, if they are not available and you need administrative assistance, it is best to contact your clinician directly at their voice mail extension.
4. All our clinicians are providing flexible visit times to make it easier for those who have a change in schedule, children at home, or whose schedule may change on short notice.

Please know that we at the Meridian Group are here to support you.
